COLLOQUIUM ON CURRENT RESEARCH ISSUES IN MUSICOLOGY| GUEST LECTURES

Talks are given at the colloquium on **current research issues in musicology**, every week, on various aspects of current research in musicology. On the one hand, this gives the department's doctoral students the opportunity to offer insights into their ongoing work on their dissertations, while, on the other, it enables teaching staff to tell them about their research projects, too. In addition, the colloquium provides a chance for attendees to get to know researchers from all around the world, in Weimar.

Date/time: Wed 6.30 pm - 8 pm, hochschulzentrum am horn, Seminar Raum 1 or Lecture Theatre

Details can be found in the [colloquium plan for the winter semester 2019/20](#).
